

WORKSHOP

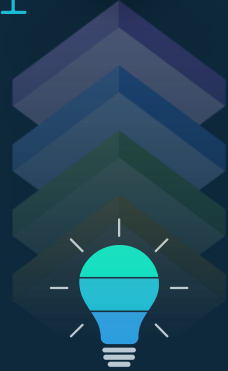

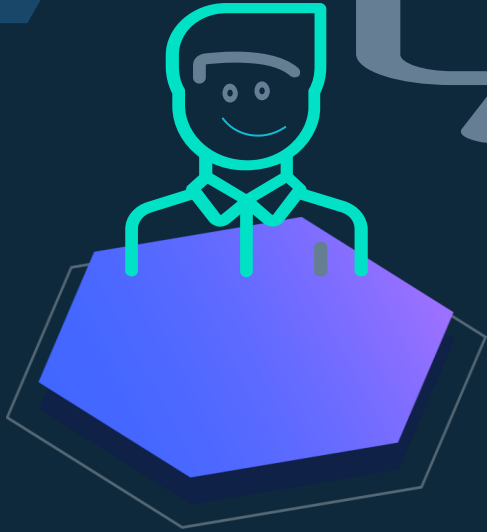

Un-Ethical Hacking with KALI Linux

Training to Spur your Flight Technology

This Side,
Mukesh Kumar Rao

Today what we learn ?

- ❖ Ethics and Legality in Cyber Security
- ❖ Areas of Cyber Security
- ❖ Career Opportunities
- ❖ Skills Required to perform Hacking
- ❖ Introduction of KALI Linux OS
- ❖ Tools overview
- ❖ Live Demos
- ❖ Q n A!

“Because hacking is not just an IT activity, it exists wherever there are rules. Hacking a system requires knowing its rules better than the people who created or run it ...”

←
– Edward Snowden
←

What is Un-Ethical ??

What we Perform??

- Hacking Facebook Account?
- Visiting and Monitoring friend's Social Accounts?
- Using friend's phone without permission?
- Making GIFs and Memes of friends without permission?
- Visiting Restricted Websites and purchase anything?
- Accessing your Neighbour's Wi-Fi without permissions?
- Login any social media account or using friend's System without permission?

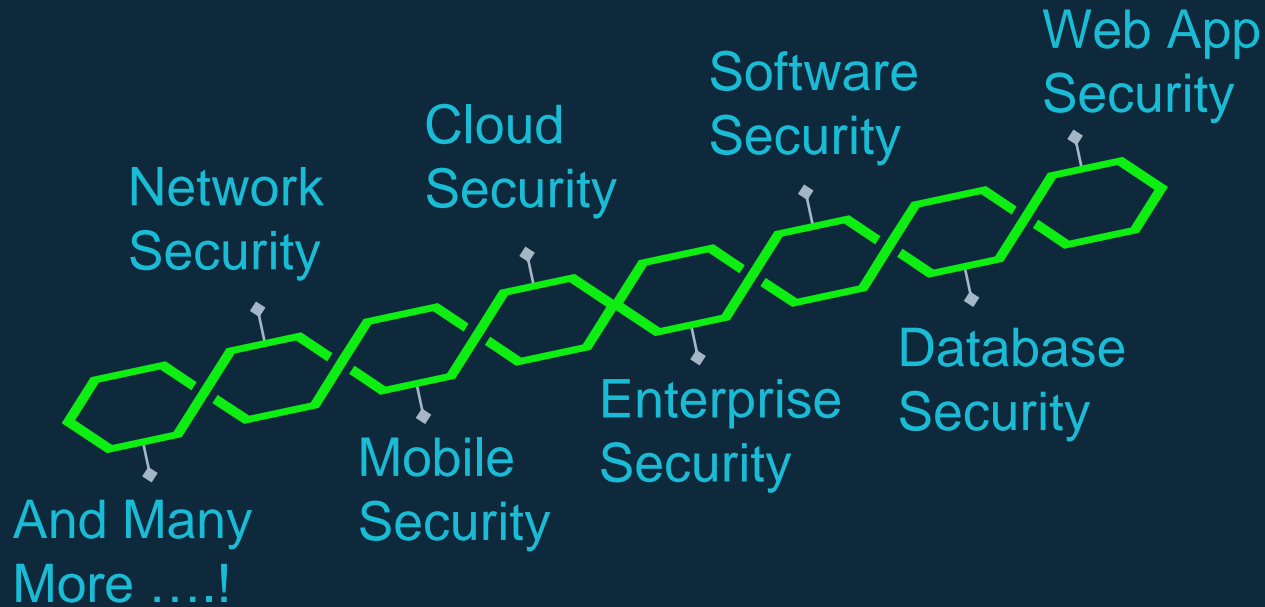

Beaware what **activity** you
perform on Internet?
And think **twice....!**

Area of Security

First off all it is not any **subject** or **course**, it is an **ART** which required years of practices and patient to **reach Elite** level of **Hacking Expert** and perform ethical **Cyber Practices**
